## Standard Parts now supplied with EASA Form 1 certificates

Airbus is pleased to inform you that as of February 2015 all Airbus Company Standard Parts (which are designed by Airbus and have a prefix such as ABS and NSA) will be supplied with an EASA Form 1 airworthiness release certificate.

## Ordering process

Airbus Material and Logistics Management handles all your Standard Parts requests (see contact details below). In addition, you can use your existing AirbusSpares account (directly or via AirbusWorld).

## Editorial

“ Dear Customers,

I am pleased to provide you with this Link Special. This newsletter provides important information regarding the sourcing of Standard Parts for your Airbus aircraft.

If you wish to receive further details on this specific topic, please do not hesitate to contact us.

Yours sincerely, ”

**Marcus A. JUNGERMANN**

## Standard Parts now supplied with EASA Form 1 certificates.

Airbus is pleased to inform you that as of February 2015 all Airbus Company Standard Parts (which are designed by Airbus and have a prefix such as ABS and NSA) will be supplied with an EASA Form 1 airworthiness release certificate.

This certificate guarantees that the part you acquire is duly qualified by the Airbus Design Office and its manufacturer is fully approved to build the part.

The new process aims at strengthening the overall quality standards of the supply chain. When purchasing Company Standard Parts direct from Airbus, you can be sure to get the best quality standard an aircraft manufacturer can provide.

Airbus invites you to ensure your Quality Department involved in control and embodiment of standard parts is also informed.

For further questions please contact your Material Support & Sales Director or [standard.parts@airbus.com](mailto:standard.parts@airbus.com).

## Ordering process

### **Dedicated Airbus team**

Airbus Material and Logistics Management handles all your Standard Parts requests (see contact details below). In addition, you can use your existing AirbusSpares account (directly or via AirbusWorld).

### **e-Ordering**

You can order either via SPEC2000 (in co-operation with your Airbus Material and Logistics Standard Parts team, SPL D4296) or on AirbusSpares via AirbusWorld at <https://w3.airbus.com/airbusworld>.
