Due to the Covid-19 pandemic we unfortunately have to cancel all our Airbus Material Management classrooms for 2020. Nevertheless, we want to remain your training provider for all spares and material management related topics and support you during this crisis with any training demand. This is an overview of our free training in digital format with easy access.

## Meet the experts

Learn from our experts about interesting market insights, operations and industry challenges

### Topics:

- GSE and Tools
- Modification Kits and Service Bulletins
- Repair in Aviation

## Expertise to go

Our training team provides relevant knowledge on material management topics in a nutshell

### Topics:

- Spares Access Concepts (Own Stock, Vendor Managed Inventory, Pooling)
