

About Satair

Satair is a truly global company and world leader in the commercial aerospace aftermarket.

The company supports the complete life cycle of the aircraft with a full and integrated portfolio of flexible, value-adding material management products, services and tailored support modules across all platforms.

Satair enters into distribution arrangements for aerospace component manufacturers and supplies parts to multi-fleet airlines and MRO companies. It fulfils the material service support obligation for the in-service fleet of Airbus, Boeing, and other major commercial aircraft.

Satair provides logistics, inventory, repair and tools services and battery maintenance services up to full-scale outsourcing solutions such as Integrated Material Services (IMS), where the entire material management for consumables and expendables is subcontracted to Satair. Satair is a key part of the Airbus Customer Services unit and a \$2 billion-turnover global company with more than 1,400 employees, operating from 10 locations worldwide.

Satair is a stand-alone company and AIRBUS subsidiary. To learn more about Satair, visit www.satair.com, or follow the company on LinkedIn: linkedin.com/company/satair.

About this publication

Some product lines shown in this publication may be subject to territory or application restrictions with regard to Satair's distribution agreements. Satair strives to keep this publication up-to-date, however, terms and conditions of individual distribution agreements may change after publication. Furthermore, this publication's sole purpose is to provide an overview of Satair's product capabilities and is not to be regarded as a binding legal document. Satair, including all associated entities mentioned in this publication, are not to be held liable for any incorrect information in this publication.

Please contact your Satair representative for detailed information.
