

AIRBUS SATAIR

Conditions for the Lease of Tools and GSE - Version Jan. 2025 -

Description

Airbus offers the tool and GSE lease service in order to support the customer performing scheduled and unscheduled maintenance, structural and other modification programs, incidents or other repairs on an Airbus aircraft.

For any order placed for the Lease of Tools and GSE the *General Terms and Conditions of Supply* (GTCS) [can be inspected and printed out following this link <https://www.airbus.com/general-terms-and-conditions-of-supply.html>] shall apply subordinated and complementary to these *Conditions for the Lease of Tools and GSE*.

Objective

Airbus' objective is to offer its customers:

- No investment and capital binding for tools only needed for certain maintenance or modification activities
- Reduced handling and administration due to recalibration and re-certification burden taken over by Airbus
- Simple access to large Airbus tools stock at latest technical standard
- Avoidance of long tools production lead times

Deliverables

Airbus provides the customer with Airbus property at the latest technical standard for a certain period of time. Airbus handles all re-calibration, recertification and occurring repairs caused by normal wear and tear for the returned leased items according to aviation standards, affected costs are included in the published lease charges.

Service

Airbus offers a wide range of tools for lease covering:

- Airbus Proprietary Tools
- Special maintenance tools, test boxes and tool kits
- Engine removals
- NDT tools and test equipment
- Cold working tools
- Ground support equipment
- Ramp equipment

Please inquire for availability before placing a lease order.

Airbus cannot guarantee reservation of tools for future dates.

AIRBUS SATAIR

For the purchase of tools please contact: **Customer Order Desk**
For Airbus Americas customer please contact: **tools.americas@airbus.com**

Process for Lease of Tools

Step 1	The customer is asked to contact the Airbus Lease Department
Step 2	Airbus checks the lease request and advises the requirements and terms. Airbus asks the customer to place a lease order via email or fax stating the customer's estimated date of return of the required lease item and the final ship-to address. CAUTION: SPEC2000 orders will not be accepted by Airbus.
Step 3	If mutually accepted, Airbus sends the leased item to the customer. Start date of the chargeable lease period is the date of delivery note for the lease shipment free carrier (FCA)* Airbus Material, Logistics and Suppliers, Hamburg or any other place specified by Airbus.
Step 4	End date of the chargeable lease period is the date when the leased item is received back delivered duty unpaid (DAP)* at the address designated by Airbus. The return shipping documents must include the original Airbus proforma invoice and must indicate the number of the present lease document and the remark "LEASE RETURN". If this information is not provided upon return, the lease fee will continue to accrue until such information is received by Airbus.

* [Incoterms® 2020](#)

For the return shipment address, please refer to the return shipment addresses listed under 'Contact'.

During the lease period, the customer shall bear the risk of loss or damage to the leased items, including but not limited to accidental damage and mishandling of the leased items and shall bear all charges related thereto up to the sales price of the concerned leased item, plus handling charges incurred by Airbus in addition to the accumulated lease charges.

The customer shall be liable for and hold harmless and indemnify Airbus, its officers employees, sub-contractors and agents from any liability for damage including consequential damages, in case of death of or injury to persons or damage to property arising out of or resulting from or in any way connected with the lease of the leased items under this document.

AIRBUS SATAIR

Prerequisites

Before shipment of Leased item to the customer:

The customer shall handle transportation and routing of the leased items from and to Airbus or any other place specified by Airbus. Freight charges from and to the specified locations are to be borne by the customer.

The customer shall pay all charges for customs duties and taxes for transporting, importing and exporting the leased items.

Treatment of Leased item:

The customer shall handle the leased items in a good, professional manner according to standard industrial practice and under provisions of the appropriate technical manuals. Lease items shall not be leased, rented or otherwise made available by the customer to any third party.

After return of Leased item to Airbus:

The leased items shall be in the same condition upon return as when delivered FCA to the customer or his forwarder, normal wear and tear excepted.

If the leased item is not returned in the required condition, Airbus reserves the right to charge the customer with all costs necessary to restore the leased item into said condition. Due to Airbus quality standards, recertification always has to be performed by Airbus or its delegated OEM. Airbus will inform the customer about additional repair charges not later than 8 weeks after lease return.

The customer shall pay all charges for customs duties and taxes for transporting, importing and exporting the leased items and packaging for the return of the leased items.

Duration

After Airbus acknowledges the customer's lease order, the customer may cancel a lease order until such time as the leased item is picked up by the customer nominated forwarder. In case of a cancellation Airbus will charge a cancellation fee. In case the leased item has been picked up for shipment by the nominated forwarder at the time of cancellation request Airbus will charge the full lease charges up to the date of return of the leased item.

The customer shall specify his estimated maximum lease period in the lease order. The customer shall return the leased items at his earliest convenience, however **not later than 45 days after delivery** unless otherwise agreed in advance.

If the lease period has been extended without written agreement from Airbus and the leased item has not been returned within the specified maximum lease period, Airbus has the right to claim a penalty charge of an amount of 0.5% of the Airbus sales prices of the leased item per day of delay. In addition, Airbus reserves the right to convert the lease into sale. In such a case, the full lease charge at the date of conversion plus the applicable sales price valid at this date will become due and payable.

The minimum chargeable lease period is 15 days.

Title to each leased item shall remain with Airbus at all times unless the customer is offered to purchase by SATAIR, in which case title shall pass to the customer upon receipt by Airbus of the payment for the purchased leased item.

AIRBUS SATAIR

PRICE

Lease charges are based on the leased item's sales price:

Lease item's new sales price	Final test and inspection charges*	Standard lease charges	
≤ \$ 1,000	\$ 550	1.0% of new lease item's sales price per day	0.5% of new lease item's new sales price per day
> \$ 1,000	\$ 750	for a minimum chargeable period of 15 days	<i>starting from day 16 of lease period</i>

*The final test and inspection charges cover all costs for testing, inspection, recertification, re-calibration and normal wear and tear repair after the leased item has been returned from the customer lease.

In case of a cancellation Airbus will charge a cancellation fee of \$ 550 per item priced up to \$1,000 and \$ 750 per item priced above \$ 1,000.

Outside the specified lease period or the period exceeding 45 days after the beginning of the lease, Airbus reserves the right to invoice the applicable lease item's new sales price plus the full lease charges up to the day of the conversion of the lease into a sale.

In case of an extended lease period without written agreement from Airbus, Airbus has the right to claim a penalty charge of an amount of 0.5% of the Airbus sales prices of the leased item per day of delay.

In case of the customer requesting and Airbus agreeing within the specified lease period to convert a lease into a sale, Airbus will charge and the customer shall pay 50% of the lease charges up to the day of the conversion but minimum full lease charges for the first 15 calendar days per leased item plus the applicable Airbus sales price for the leased item.
